2:00 PM to 6:15 PM	Skill Lab #2 - Pain Management & Opioids: A Patient-Centered Approach* (4 CME) <i>Norman Bowers, PA-C, Lisa Hrushka, DO, Joshua Minori, DO, & Mathew Romankowski, MD</i>

*58-37-6.5 continuing education for controlled substances prescribers

Overall Program Objectives

At the completion of the medical conference, attendees will have a better idea of how to treat, manage, and educate their patients by:

1. Addressing pearls from specialty medicine (and when to refer) concerning orthopedics; vaccine politics; weight loss medicines (GLP-1); hospice & palliative care; alternative treatments for depression; genetics/Ehlers-Danlos syndrome; new guidelines for pediatric obesity; new concussion protocol & health approach; complex regional pain syndrome & testing; Urology-Prostate Cancer Screening and the Evolution of Active Surveillance; and tobacco data and enforcement in Weber & Morgan Counties.
2. Identifying current medical issues (and when to refer) concerning wound care: adventure medicine; nephrology lecture: home dialysis modalities; women's health: women in sports/balance needed, menopause, and sexual medicine; and modern mechanisms for old medicine part 1: leveraging osteopathic neuromusculoskeletal medicine for enhanced patient outcomes.
3. Providing education of interest concerning the comfort crisis; lessons on movement from a runner, Olympian, and Team USA coach; what the health is happening; creating BYU medical school; vascular & lead surgeon for project recovery; and project recovery: Sarah's Story.
4. Completing an opioid education CME course to fulfill the Utah DOPL prescription licensure.
5. Completing a medical cannabis course, Medical Cannabis in Utah: Law Update And Best Practices for Safe Use of Medical Cannabis
6. Experiencing hands-on performance skill labs concerning exercise science regime for clinicians and their patients; hands-on wound care; prescribing movement: yoga (floor & chair); vestibular rehab; taping skill lab (ankles & knees), NRP recertification, and ACLS recertification.
7. Identifying resident, medical student, and undergraduate quality improvement research and/or clinical project lectures and posters.
8. Addressing the current medical issues, and through review or integration of new or improved discoveries of current medical issues, improve competence and performance in clinical practice for patient care.
9. Identifying recent changes in healthcare laws and policies from the update of the recent Utah legislature from the UMA perspective. With this information, it is important to discuss the impact on the medical practice and practitioner.
10. Enhancing competence and performance skills of the interdisciplinary team to improve care of patients needing primary and/or specialty care. The intent is to facilitate productive, collegial action between the medical team, including physicians, physician assistants, nurses, nurse practitioners, social workers, and first responders.

Program Description

At the completion of the 3.5-day Ogden Surgical-Medical Society CME conference 2026, attendees will have a better idea of how to treat, manage, and educate their patients by: Addressing Pearls from Specialty medicine (and when to refer); Identifying current medical issues concerning movement and primary care; Providing education of interest; Completing an opioid education course; Completing a medical cannabis course; Experiencing hands-on performance skill labs; Identifying resident quality improvement project lectures and posters; Identifying recent changes in healthcare laws, and policies; and Enhancing competence and performance skills independently and performance skills independently and as a medical team.

DID YOU KNOW?

National Kidney Foundation™
of Utah and Idaho

1 in 3 American adults is at high risk for kidney disease (KD) • About **1 in 2** U.S. adults aged 30–64 will develop chronic kidney disease over the course of their lifetime. • **1 in 7** American adults has KD, and most don't know it • **Diabetes and high blood pressure** are the two leading causes of KD • Nearly **38.4 million** Americans (**1 in 10**) have diabetes • Diabetes is the leading cause of kidney failure in the U.S., accounting for roughly **40–45% of the more than 800,000** Americans living with end-stage kidney disease. • **About half** of American adults have high blood pressure, and roughly **1 in 5** of them don't know it • Kidney disease causes over **50,000 deaths** in the U.S. each year and is a leading cause of death. • Because KD often has **no symptoms**, it can go undetected until it is very advanced • **Early detection** and treatment can slow or prevent the progression of KD • Of the more than **100,000** Americans on the waiting list for a lifesaving organ transplant, over **90,000** need a kidney, and about **27,000** kidney transplants are performed each year • Every day, about **12 people die** waiting for a kidney transplant in the U.S. • Once the kidneys fail, dialysis or a kidney transplant is required • Over **540,000** Americans are on dialysis and more than **260,000** live with a functioning kidney transplant • People with kidney disease often require frequent medical care to manage their condition. • CKD and end-stage kidney disease together cost the U.S. healthcare system over **\$130 billion** each year.

Driving Directions

Driving from South of Ogden:

1. Turn right on 4600 South
2. Turn left into Dee Event Center Parking Lot
3. Board the free OGX bus to Ogden Central/Wildcat Shuttle
4. Get off the bus at Weber State Central Station
5. Turn left and enter the Shepherd Union Building
6. Go to the 3rd Floor by elevator or stairs

Driving from North of Ogden:

1. Turn left on 4600 South
2. Turn left into Dee Event Center Parking Lot
3. Board the free OGX bus to Ogden Central/Wildcat Shuttle
4. Get off the bus at Weber State Central Station
5. Turn left and enter the Shepherd Union Building.
6. Go to the 3rd Floor by elevator or stairs

Parking

Free parking at Dee Events Center, WSU lot W8, and free OGX bus.

Free OGX bus leaves every 10 minutes from 4:30am-midnight

Staying at a nearby hotel in Ogden? Transportation is FREE on the OGX Bus. Times, routes, and your nearest OGX station can be found below!
