FEATURED SPEAKERS & AUTHORS

Brian Deer

Wednesday Lunch Keynote: The Doctor Who Fooled the World

Brian Deer is a British investigative journalist internationally recognized for his reporting on the pharmaceutical industry, medical research, and social issues. He will present the Wednesday keynote lunch lecture on his book, *The Doctor Who Fooled the World*, which exposed Andrew Wakefield's fraudulent research linking the MMR vaccine to autism & highlights the importance of scientific integrity, medical ethics, and public trust in medicine.

Jennifer Vanderbes

Thursday Lunch Keynote: Wonder Drug-The Secret History of Thalidomide in America and Its Hidden Victims

Jennifer Vanderbes, a Yale graduate, is an award-winning novelist and journalist. She will present a Thursday keynote lunch lecture on her book, *Wonder Drug*, an investigative account of America's largely hidden thalidomide tragedy. Drawing on extensive research and survivor interviews, she will explain how she exposed pharmaceutical misconduct, gaps in drug oversight, and the lasting consequences to patients and families. Her work offers a compelling perspective on medical ethics, patient safety, informed consent, and the importance of regulating accountability.

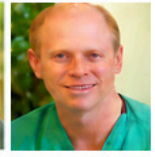

Jack El-Hai

Friday Lunch Keynote: The Nazi and the Psychiatrist and The Lobotomist

Jack El-Hai, an award-winning journalist and nonfiction author, explores medicine, history, science, and crime. He is the author of the New York Times best seller, *The Nazi and the Psychiatrist*, recently adapted into the film *Nuremberg*, and *The Lobotomist*. He will present the Friday lunch lecture on his books, *The Nazi and the Psychiatrist*, and *The Lobotomist*, exploring medical history and the ethical complexities of medicine.

Bob Moesinger, MD, and his daughter, Natalie Jensen

Tuesday Evening Dinner Keynote: Natalie's Cardiac Medical Journey and Personal Story

Dr. Moesinger is a General Surgeon with Northern Utah Surgeons, practicing at McKay-Dee Hospital and Ogden Regional Medical Center. Natalie underwent four open heart surgeries before age six, followed by an experimental cardiac catheterization procedure and valve replacement at age 13. A Weber State University graduate in Elementary Education, Natalie has taught first and second grade and now lives in Montana with her husband and two young boys.
